# KB-86 Suction Cabinet

## New Technology in Blasting Cabinets

**\$3,995** + Freight

### Use On Every Type of Surface:

- Steel
- Stainless Steel
- Aluminum
- Brass

### KB Suction Cabinet

*The Innovative Exhaust System Eliminates the Need for Cyclone Reclaimers and Dust Bags.*

### GREAT VALUE

- Save up to 30% in abrasive media
- Avoid the constant replacement of costly dust collector filters

### USES ALL TYPES OF MEDIA

- Allows the use of all types of abrasive media, including steel shot, steel grit, aluminum oxide, walnut shell, crushed glass, silicon carbide, and glass beads.

### GREAT VISIBILITY

- Powerful lighting, coupled with the unique exhaust system, creates excellent visibility

### COMPACT DESIGN

- Occupies 24" less in depth than former models

Buy Your Blast Media from Us and We'll Recycle Your Spent Media for FREE for 1 Year!

### ADVANTAGES OF THE EQUIPMENT The Evolution of the blasting process

#### Exhaust fan at the end of the circuit

- It is out of the abrasive path
- No wear
- Adjustable exhaust power for each type of mesh size

#### Compact Design

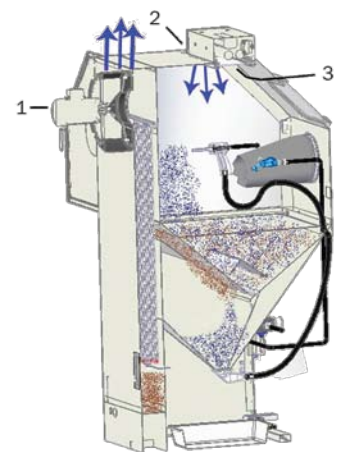

- Occupies less room
- Vacuum system for cleaning near equipment
- Standard hose attachment

#### Dust Separation at the Hopper

- Allows the use of all types of abrasive
- Efficient and adjustable separation

#### Built-In Filter System

- No dust collector bags to replace
- Filter is cleaned by mechanically agitating inside a closed environment

- 1 - Exhaust Fan
- 2 - Air Inlet
- 3 - Lighting Fixture

- ↑ - Clean Air Flow
- ⬇ - Good Abrasive Media
- ⬇ - Dust and Impurities

#### Blasting Chamber Area

Width: 35.5"  
Depth: 29.5"  
Height: 27.6"

#### Electrical Req.

115 volt 60Hertz  
20 Amperes  
Standard grounded plug

#### Transportation Dimensions

Width: 39.4"  
Depth: 33.5"  
Height: 67"  
Filtering Area: 34 sq. ft.  
Weight: 350 lbs.
